## IAATO LIVE SHIP SCHEDULER GUIDE

### Login Screen

To gain access to the IAATO Live Ship Scheduler the user will need to enter their username and password for an account with Ship Scheduler access.

The live map can be accessed at:  
<https://liveshipscheduler.iaato.org>

In order to use the live map the user must select a vessel and enter the corresponding **PIN number**.

A screenshot of the IAATO Live Ship Scheduler Member Login page. The page has a dark blue header with the IAATO logo on the left and navigation links "Return to IAATO website" and "Member Login" on the right. The main content area is white and titled "Login". It contains two input fields: "Username" and "Password". Below the password field are two links: "Forgot your password?" and "Resend activation email?". There is a checkbox labeled "Remember My Login". At the bottom of the form is a dark blue "Login" button with a right-pointing arrow. The footer is dark blue and contains the text "WWW.IAATO.ORG" on the left and "Terms and Conditions" and "Privacy Policy" on the right.

#### Right Navigation Menu – Part 2

Protected areas are split into multiple filters:

- Geo-fenced Areas: Red & Pink
- ASMA & ASPA: Light Orange
- Helicopter Restrictions: Yellow

A user can toggle these on and off.

NEW

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a navigation menu with icons for location, globe, notifications, mail, print, download, and share. The main area is a map of Antarctica with various site markers (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100). The right-hand navigation menu includes the following sections:

- Status:** Last updated: 16:10, Delaney, Status: Connected, Voyage Number: TDY01JAN2025, Filter Date: 01 Jan 2025, No other active filters.
- Useful Tip:** Use the below options to filter the availability. Click the marker on the map to book.
- Sites & Regions:** My Booked Sites (checked), Available (checked), Unavailable (checked), Regions (checked).
- Filter by date:** 01 Jan 2025, Filter by timeslots: Select a timeslot.
- Filter by site regions:** Select a site region, Find site: Lemaire Channel.
- Filter by vessel category:** Select a vessel category, Filter by Landed: Select Landed - Non-Landed / Marine Only Activity.
- Vessels:** All (checked), My Vessel (checked).
- Protected Areas:** Geo-fenced Areas (checked), ASMA (checked), ASPA (checked).
- Voyage Overview:** Voyage overview will show all site visits during your currently active voyage. All other filters will be disabled. Show (checked).

At the bottom right, there are zoom controls (+, -) and a 'Reset Zoom' button. A footer note reads: 'Keyboard shortcuts | Map data ©2024 | Terms'.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Search

You can search the list of sites via the text input box at the top of the Site list. The search is a real-time search and will filter out sites that don't match your text input as you type.

Once you have selected a site, the map will pan to the site and the site booking window will open.

To clear the search once you have selected a site or typed one in you can click the X on the right hand side of the text input, or click "Clear" at the bottom of the sites list.

If you have also filtered by a site region the list of sites will be filtered by those included in the selected site region only.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a vertical navigation menu with icons for location, globe, notifications, mail, printer, download, and share. The main area is a map of Antarctica with numerous blue circular markers numbered 1 through 17, representing different sites. Labels on the map include Brabant, Melchior Base, Anvers, Palmer Station, Base Vostok, Vernadsky Research Base, Gonzalez Videla's Antarctic Base, and Blunt Point. A green shaded region is visible on the continent. On the right is a dark-themed filter panel with the following sections:

- Status:** Connected, Delayed, Voyage Number: TDV01JAN2025, Filter Date: 01 Jan 2025, No other active filters.
- Useful Tip:** Use the below options to filter the availability. Click the marker on the map to book.
- Sites & Regions:** My Booked Sites (checked), Available (checked), Unavailable (checked), Regions (checked).
- Filter by date:** 01 Jan 2025, Filter by timeslots: Select a timeslot.
- Filter by site regions:** Select a site region, Find site: Select or search for a site (Jou, Joulin Islands, Jougla Point).
- Filter by vessel category:** Select a vessel category.
- Vessels:** All (checked), My Vessel (checked).
- Protected Areas:** Geo-fenced Areas (checked), ASMA (checked), ASPA (checked), Helicopter Restrictions (checked).
- Voyage Overview:** Voyage overview will show all site visits during your currently active voyage. All other filters will be disabled. Show (checked).

At the bottom right of the filter panel are zoom controls (+, -) and a "Reset Zoom" button. The Google logo is visible in the bottom left corner of the map area.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Entire Voyage Overview

At the bottom of the right navigation menu, the user can access the Voyage Overview feature.

This feature allows the user to toggle on the voyage overview mode to see all bookings for the selected voyage.

The site bookings will appear on the screen with a red dotted line that links the bookings in order of date.

If the user hovers their mouse over the site booking, they will be able to see the site name and booking date/ time.

Site bookings can be released from the viewing mode, but any other schedule changes will need to be made with the voyage overview toggled off.

The screenshot displays the IAATO Live Ship Scheduler interface. At the top left is the IAATO logo. Below it is a navigation menu with icons for home, globe, notifications (with a red '1'), mail, calendar, back, and forward. The main area is a map of the North Atlantic region, showing sites like Base Yelcho, Anvers, Brabant, and Liege Island. A red dotted line with arrows connects these sites in a sequence. A top status bar shows: Last updated: 16:38, Status: Connected, G1aOne, Voyage Number: GIA08MAR2024, Filter Date: 08 Mar 2024, and No other active filters. The bottom right corner has a 'Reset Zoom' button and a Google logo. The text 'Keyboard shortcuts Map data ©2023 Terms' is visible at the very bottom right.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Left Navigation Menu

The left navigation gives the user access to the Expeditions list to view all expeditions for the season, Site Visits list to see all bookings for the selected voyage, and export the traditional report.

Additionally, the user can see all site releases during the active session and view and send messages to the fleet. These two features are highlighted in the next few slides.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a dark navigation menu with the IAATO logo at the top. The menu items include: Expeditions, Site Visits, Released Sites (with a red notification badge), Broadcast, IAATO Message Board, Export (with an expandable arrow), Export Traditional Report, Export Traditional Report by Site, Logout (with an expandable arrow), Change Vessel, and Logout From Ship Scheduler. The main area is a map of Antarctica with several site markers: two red globe icons and three green globe icons. A blue signal icon is also visible. The top right corner shows status information: Last updated: 16:11, Status: Connected, Vessel: GilaOne, Voyage Number: GIA01NOV2023, Filter Date: 01 Nov 2023, and No other active filters. The bottom right corner features a 'Reset Zoom' button and map controls. The Google logo is visible in the bottom left corner of the map area.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Site Groupings

On the Live map, some sites will now appear as grouped together with a blue icon and number of sites in the grouping. As the user zooms in, sites will start to separate.

This functionality allows users to know when there are sites close together so they are able to book them. For example, Goudier Island and Jougla Point are very close together and on certain map views they appear as one site. Now they will be grouped with a blue icon. If you click on the blue icon, it will zoom in so both sites are visible.

To zoom back out to view the entire map, click on 'Reset Zoom' in the bottom right corner of the map.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a dark sidebar menu with the IAATO logo at the top and the following options: Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main area is a map of Antarctica with numerous blue circular icons, each containing a number representing a site grouping. Some icons are highlighted with red polygons. Labels on the map include 'Vittorio East', 'General Bernardo O'Higgins Base', 'Base Marambio', 'Lime Point', and 'Adelphi'. A top status bar shows 'Last updated: 15:58', 'Status: Connected', 'GlaOne Voyage Number: GIA01NOV2023', and 'Filter Date: 01 Nov 2023'. In the bottom right corner, there is a 'Reset Zoom' button and a 'Keyboard shortcuts | Map data ©2023 | Terms' link.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Bookings

The user can click on a site to see more information about the site including which time slots are available, the site coordinates, site feature, and site region. Unavailable time slots will be greyed out with the booked vessel listed underneath.

To book a site, the user can click on a time slot, then select whether the visit will be Landed or Non Landed, then select 'Book Site Visit'. If booking two consecutive time slots, check Non-Landed for the second time slot.

To release a site, open the site booking window, and click 'Release' under the time slot.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a dark sidebar with navigation options: Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main area shows a map of Antarctica with a green location pin on the Bay of Whales. A pop-up window titled 'Bay of Whales' is open, showing the following details:

- Status: Available
- Latitude (DEC): -78.50 Longitude (DEC): -164.33
- Site Feature: Bay Site Region: Continent
- Time Slots Available (01 Nov 2023):

04.01 - 07.30	07.31 - 13.00	13.01 - 18.30	18.31 - 22.00	22.01 - 04.00
<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- Landed?  Yes  No
- Buttons: Cancel, Book Site Visit

At the top right of the interface, there is a status bar with the following information: Last updated: 15:58, Status: Connected, Vessel: GilaOne, Voyage Number: GIA01NOV2023, Filter Date: 01 Nov 2023, and No other active filters. At the bottom right, there are zoom controls (Reset Zoom, +, -) and footer text: Keyboard shortcuts, Map data ©2023, Terms.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Bookings – Lemaire

A user can select the Lemaire channel in the sites dropdown (inside the navigation menu) and book a timeslot and channel direction (N/S or S/N).

The site can be booked in 1 hour increments, and is non-restrictive so more than one vessel is able to book a time slot.

NEW

### Live Map

#### Booking Peer Sites

When booking a site, if the site has a peer site, the user will be alerted in the booking window and asked if they would like to book the peer site as well. The user can select Yes or No, and then select if the booking is landed or non-landed before finalizing the site booking.

When releasing a booking of peer sites, each site will need to be released individually.

The screenshot displays the IAATO Live Ship Scheduler interface. A dark sidebar on the left contains navigation options: Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main area shows a map with a pop-up window for 'Goudier Island'. The pop-up includes the following information:

- Status: Available
- Coordinates: Latitude (DEC): -64.83, Longitude (DEC): -63.50
- Site Feature: Island, Site Region: Peninsula
- Time Slots Available (01 Nov 2023): 04:01 - 07:30, 07:31 - 13:00, 13:01 - 18:30, 18:31 - 22:00, 22:01 - 04:00. The 07:31 - 13:00 slot is selected.
- Landed?  Yes  No
- Alert: Goudier Island has 1 peer site. Select the peer site you would also like to book from below.
- Peer Site: Jougla Point  Yes  No
- Buttons: Cancel, Book Site Visit

At the top right of the interface, there is a status bar with the following information:

- Last updated: 15:58
- Status: Connected
- GiaOne
- Voyage Number: GIAO1NOV2023
- Filter Date: 01 Nov 2023
- No other active filters

At the bottom right, there is a 'Reset Zoom' button and a Google logo.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Book & Release

When booking a new site, if the user already has a site booking on the same day in the same time slot, a message will appear in the booking window that alerts the user that they have an existing booking. If the user wishes to release the existing booking to book the new site, the user can select 'Yes' and 'Book & Release'.

If they decide not to make the change, the user would select No and Cancel.

If the original booking was two peer sites, the system will release both bookings to book the new site.

The screenshot displays the IAATO Live Ship Scheduler interface. A dark sidebar on the left contains navigation options: Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main map area shows the Antarctic Peninsula with a pop-up window for Alexander Island. The pop-up window includes the following information:

- Available** (indicated by a green dot)
- Alexander Island** (Title)
- Latitude (DEC): -71.00 Longitude (DEC): -70.00**
- Site Feature: Island Site Region: Peninsula**
- Time Slots Available (01 Nov 2023)**

04:01 - 07:30	07:31 - 13:00	13:01 - 18:30	18:31 - 22:00	22:01 - 04:00
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
- Landed?**  
 Yes  No
- Conflict Message:** ALEXANDER ISLAND: Your vessel already has a booking for selected date and timeslot(s)
- Conflict Resolution:** You have 1 or more conflicting bookings for the selected time slots. Would you like to release the bookings for Bear Peninsula at 22:01?  
 Yes  No
- Buttons:** Cancel, Book and Release

The top right of the interface shows system status: Last updated: 15:58, Status: Connected, Vessel: G1aOne, Voyage Number: GIA01NOV2023, Filter Date: 01 Nov 2023, and No other active filters. A 'Reset Zoom' button is located in the bottom right corner of the map area.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Region Booking Window

The booking window for regions will now display all vessels that are booked on that day so other vessels will know which vessels plan to be on the area.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a dark sidebar with navigation options: Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main area shows a map with a green location pin. A modal window titled "Region: Lemaire Channel" is open, displaying the following information:

- Booked (indicated by a yellow triangle icon)
- Region: Lemaire Channel
- Latitude (DEC): -65.07 Longitude (DEC): -63.95
- Site Feature: Channel Site Region: Peninsula
- 01 Nov 2023
- Existing Region Visits
- Giangarra: GioOne

At the bottom of the modal are two buttons: "Cancel" and "Release Region Visit". The top right of the interface shows status information: "Last updated: 15:58", "Status: Connected", "GioOne", "Voyage Number: GIAO1NOV2023", and "Filter Date: 01 Nov 2023". A "Reset Zoom" button is visible in the bottom right corner of the map area.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Release Notifications

Release Notifications show all vessel releases in real time and a backlog of releases for the previous 24 hours.

The release notifications are displayed in the Live Ship Scheduler with a bell icon in the left navigation menu. The bell will display a red number upon logging in showing all releases that have been made since the last login within the last 24 hours.

When you click on the bell, a pop up window will appear showing the Site Name, the release date, the date of the site visit, the time slot, and if the visit was landed or non-landed.

During your session, if a release in the release window gets booked, a red "Rebooked" sign will show to the left of the site name. This site release line will disappear from the release notifications window upon your next login.

Released sites can be booked directly from the Release Notifications window. Click on the site name of a released site to be brought to the site's booking window. The map will filter to the date of the release. Select a timeslot and book.

The screenshot shows the IAATO Live Ship Scheduler interface. A dark sidebar on the left contains navigation options: Expeditions, Site Visits, Released Sites (highlighted with a bell icon and a red '2'), Broadcast, IAATO Message Board, Export, and Logout. The main area is a map of Antarctica with several site icons. A 'Released Sites' pop-up window is open, displaying a table of released sites. The table has columns for Site Name, Released On, Visit Date, Time Slot, and Landed Visit. The 'Weddell Sea' site is marked as 'Rebooked'.

Site Name	Released On	Visit Date	Time Slot	Landed Visit
<a href="#">Marion Island</a>	20 Sep 2023 15:58	01 Nov 2023	04:01-07:30	No
<span style="color: red;">Rebooked</span> <a href="#">Weddell Sea</a>	20 Sep 2023 15:57	01 Nov 2023	04:01-07:30	No
<a href="#">Splettstoesser Glacier</a>	20 Sep 2023 08:54	19 Oct 2023	04:01-07:30	Yes
<a href="#">Horseshoe Island</a>	20 Sep 2023 08:54	17 Oct 2023	07:31-13:00	Yes

Top right status bar: Last updated: 15:58, Status: **Connected**, G1aOne, Voyage Number: GIA01NOV2023, Filter Date: 01 Nov 2023, No other active filters.

Bottom right: Reset Zoom, Keyboard shortcuts, Map data ©2023, Terms

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Broadcast Button

The Broadcast Message button allows the user to send a message to the entire fleet or to a select group of stakeholders.

Click on the envelope icon in the left navigation menu to open the message form. Select a group to send it to, fill in the subject and body of the message and add an attachment if applicable, then click Send.

The message will get sent to the group via email as well as a copy to the user who sent the message.

The screenshot displays the IAATO Live Ship Scheduler interface. A 'Broadcast Message' dialog box is open, allowing users to send messages to specific distribution groups. The dialog includes fields for 'To' (a dropdown menu), 'Subject', 'Message' (a rich text editor with a 12pt font size and bold, italic, underline, and link options), and 'Attachments' (a file selection field). 'Cancel' and 'Send' buttons are located at the bottom of the dialog. The background shows a map of Antarctica with several location markers. A right-hand sidebar contains filters for 'Filter by timeslots' and 'Find site'. The top of the interface shows 'Last updated: 09:58', 'GlaOne', and 'Filter Date: 01 Nov 2023'.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Broadcast Message Board

The IAATO Broadcasts section, which can be accessed by the two messages icon in the left navigation menu, will show a list of messages directly from either IAATO (left hand tab) or Fleet (right hand tab) with important information. All vessels on the distribution list will receive these messages via email,

Important seasonal information from IAATO and/or the Fleet will be pinned to the top of each broadcast section.

Each broadcast section will also have search bar to easily search messages for key words.

NEW

The screenshot displays the IAATO Live Ship Scheduler interface. On the left is a dark navigation sidebar with icons and labels for Expeditions, Site Visits, Released Sites, Broadcast, IAATO Message Board, Export, and Logout. The main area features a map of the Southern Ocean with several green location markers and blue signal icons. A large 'IAATO Message Board' modal window is open, showing two tabs: 'IAATO Broadcasts' and 'Fleet Broadcasts'. The 'IAATO Broadcasts' tab is active, displaying a search bar and a list of messages. The messages include a pinned 'Test' message from 10 Sep 2024 at 16:23, and several 'List Test' messages from 10 Sep 2024 at various times. A 'Test' message from 04 Sep 2024 at 12:51 is also visible. The 'Fleet Broadcasts' tab shows a message from 'jim.mcmillan@spgsoftware.com' to 'IAATO Ship Scheduler' with the subject 'Test'. The top right of the interface shows 'Last updated: 16:10', 'Delaney', 'Voyage Number: TDV013AN2025', and 'Filter Date: 01 Jan 2025'. A 'Reset Zoom' button is visible in the bottom right corner of the map area.

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Traditional Report

The Traditional report, an excel document that shows the entire season's scheduled site visits, can be exported through the left navigation menu.

- There are two options:
  - Traditional Report- This will show site bookings organized by date and vessel.
  - Traditional Report by Site - This will show site bookings organized by date and Site.

In the left navigation menu, select 'Export', then select the desired report.

The screenshot displays the IAATO Live Ship Scheduler interface. On the left, a navigation menu includes options like Expeditions, Site Visits, Released Sites (with a red notification badge), Broadcast, IAATO Message Board, Export, and Logout. The main area shows a map of the Antarctic region with various site visit markers (blue circles with numbers) and vessel icons. A modal window titled "Export Traditional Report" is open, with "Cancel" and "Export" buttons. The top status bar shows "Last updated: 15:18", "Status: Connected", "GlaOne", "Voyage Number: GIA01NOV2023", and "Filter Date: 01 Nov 2023".

## IAATO LIVE SHIP SCHEDULER GUIDE

### Live Map

#### Monitoring Your Connection

The user is able to monitor your connection using the status bar at the top right.

If the user has a current connection to the system this will display "Status: Connected." Behind the scenes, the system will be constantly checking for any updates e.g. vessel location change. When it detects or receives an update, it will update the "Last Update" time.

If the user loses this connection, most likely due to a drop in a network connection, this will display as 'Disconnected'.

If a booking attempt or release attempt is made when the user is disconnected this will be added to a queue and the user will be notified of this.

Once a connection is re-established this queue will be processed and the user will be notified of any success or error messages from their initial requests in the top left hand corner.

The screenshot displays the IAATO Live Ship Scheduler interface. At the top left, there is a red notification banner with an exclamation mark icon and the text: "No network connection available. Your booking request for Stancomb Wills Rookery will be added to a queue and sent when a network connection is established." The top right status bar shows: "Last updated: 14:27", "Status: Connected", "Voyage Number: GIA17OCT2023", and "Filter Date: 17 Oct 2023". A central modal window is open for "Stancomb Wills Rookery", showing its coordinates (Latitude (DEC): -74.08, Longitude (DEC): -22.96) and site features. Below this, a section titled "Time Slots Available (17 Oct 2023)" lists five time slots: 04:01 - 07:30, 07:31 - 13:00, 13:01 - 18:30, 18:31 - 22:00, and 22:01 - 04:00, each with a radio button. A red error banner at the bottom of the modal reads "STANCOMB WILLS ROOKERY: Network Error". At the bottom of the modal are "Cancel" and "Book Site Visit" buttons. The background is a map of Antarctica with a green location pin on the continent. A sidebar on the left contains navigation icons, and a bottom right corner has "Reset Zoom" and "Keyboard shortcuts" options.
