

# 2022-23 Helpful Hints for taking the Online Assessment

**THE 2022-23 ONLINE ASSESSMENT WILL OPEN ON WEDNESDAY JULY 13TH, 2022**

It's time to start preparing for the 2022-23 season and for many this means taking the IAATO Online Assessment. The below information will assist with your preparation for the Online Assessment and give some helpful hints.

Here are some of the most frequently asked questions about the Online Assessment.

## 1. What is the Online Assessment?

The Online Assessment is one of the tools IAATO uses to show the Treaty Nations that their Officers, Crew, Field Staff, Observers and office staff are qualified, continually training, and learning the most up to date information regarding the rules and procedures for operating in and around the Antarctic. The Online Assessment is also a resource to assess knowledge of, and become familiar with, the Field Operations Manual (FOM), which is where they can find the answers for IAATO and Antarctic Treaty related questions.

## 2. Who has to take the Online Assessment?

All IAATO Field Staff are required to take an IAATO Online Assessment each season. Which assessment will depend on your position.

Additionally, Captains and senior Officers are also required to take the Online Assessment each season.

Please check with your Operator for which assessment you should take.

**ALL field staff visiting and guiding on South Georgia must hold the current season's Online Assessment Certificate.**

## 3. Where do I find the answers to the questions in the Online Assessment?

All of the answers for the Online Assessment can be found in the IAATO Field Operations Manual, or on the [IAATO website](#)

Knowing how to access and navigate the FOM is critical for success in completing the Online Assessment as well as understanding many important aspects of Operations in Antarctica and South Georgia. See below on how to access the FOM and Online Assessment.

## Assessment Tips

1. **Take the assessment before you leave home/good internet connection** – internet services in most gateway cities and/or in the field are not fast enough to successfully run the Online Assessment.
2. The Assessment is 'Open Book'. You will need to have access to the current version of the FOM and IAATO Website, in order to correctly identify answers. It is useful to have the Online Assessment open in one browser window and the FOM in another, to make it easy to switch between the two. If you have access to two screens or computers, then you can open one on each to make it even easier.
3. **Returning Assessment takers:** Allow yourself a minimum of 1-2 hours to take the actual Assessment. **Note:** the assessment viewing has been reset for the 2022-23 season, so older assessments are no longer able to be viewed.

Any questions can be sent to either Erin ([edelaney@iaato.org](mailto:edelaney@iaato.org)) or IAATO's Online Assessment Administrator ([survey\\_test@iaato.org](mailto:survey_test@iaato.org)).
